# CATERING WARE

## VAJILLA CATERING

Modern, innovative and highly attractive catering ware ... these are the key features of the NATURE and WAVE Catering system by Araven. Products with a carefully-studied design and excellent aesthetic finish in line with the very latest cuisine trends in the catering sector. Made of high-density polystyrene (PS). 100% recyclable; material with an excellent aspect, shine and surface finish characteristic of a top-class catering service.

The range is presented in three colour proposals: transparent, white and black. Each piece achieves a perfect balance with the food it displays offering an impeccable presentation that will highlight the originality of the most avant-garde culinary creations.

Suitably dimensioned to taste food in one or two mouthfuls; their rounded shapes allow access to all of their contents.

Ergonomic and versatile, the items in the range offer numerous possibilities for combining colors and shapes (glass fits on to plate so that both can be held in one hand. Small flat plate with deep flat plate...).

Easy stacking to optimize empty spaces, in whole product family.

Modernas, innovadoras y atractivas...así son las vajillas de catering NATURE y WAVE Catering System de Araven. Un producto de cuidado diseño y acabado estético excelente siguiendo las últimas tendencias de cocina en el sector de catering. Fabricado en Poliestireno de alta densidad (PS). 100 % reciclable, material de excelente presencia, brillo y acabado superficial propio de un servicio de catering de alta gama.

Se presenta la gama en tres propuestas de color: transparente, blanco y negro. La pieza y el alimento en la exposición se complementan encontrando un equilibrio entre las dos para conseguir una impecable presentación con la que resaltar la originalidad de las creaciones culinarias más vanguardistas.

Por su capacidad el alimento se puede degustar en uno o dos bocados y sus formas redondeadas permiten acceder a la totalidad de su contenido.

Ergonómica y versátil las piezas de la gama permiten múltiples combinaciones de color y forma (encaje del vaso sobre el plato con el fin de sujetar los dos elementos en una sola mano. El platillo plano con platillo hondo ...).

Fácil apilamiento para optimizar el espacio en vacío en toda la familia.
