PREMIUM SERVICE TROLLEY LINE

ZE PÉ presents the new service trolley line TACTUS.

Service trolleys with modern and clear design and a special surface treatment, which gives a unique soft and rubber-like touch to the wood ... you must feel it!

ZEPETOUGH™ TECHNOLOGY

- > Special warm and soft touch - matt finished surface.
- > Hydrophobic high-tech surface treatment with self-cleaning effect - modelled on nature: Dirt can be easily removed by water.
- > Good fire- and high temperature resistance for wooden trolleys.
- > Excellent resistance to abrasion and scratches for a wooden trolley. For example the bottom of porcelain bowls and dishes could be unglazed and therefore sharp, and can therefore cause scratches on the surface of wooden trays and trolleys.
- > ZEPÉtouch™ protects your investment through longer lifetime of the trolley.
- > This finish is non toxic and complies to the European REACH regulation.

The trolleys are available in two standard colours: black and white. Further colours (all RAL colours) upon request. Please order a colour sample and test the quality of this surface.
